

Wickwoods Singles Pyramid

For tennis players that like to play singles, there is the option to sign up for our new Singles Pyramid which is open to all players of all standards.

- Players are placed on the pyramid by the coaches and can challenge any player on the row above their row to a singles match
- Players must accept all challenges by other players
- The player on the lower row will take the place of the player above if they win the match. If the lower player loses their position remains the same
- Matches will consist of a 10 game pro-set, i.e. the first player to 10 games with a two game margin (10-5, 10-8, 11-9 etc)
- Players record their results on the sheet provided by the tennis info area opposite the fire place in reception alternatively from reception. All completed sheets are to be handed in at reception. Bob and Karen will then change the pyramid places.
- Monthly prizes will be awarded, for most challenges, further details to follow.

See Bob, Karen or www.wickwoods.co.uk for more information.

The pyramid itself can be found opposite the stairs in the reception area on the wall
